

MEDIA INFOTECH ENTERPRISE SYSTEM • OFFICIAL GUIDE

Attendance, Work Hours Analytics & Rostering Suite

Comprehensive Feature Breakdown, Workflows & Operational Manual

■ **Executive Overview:** The Media Infotech Attendance Suite is an enterprise workforce solution providing GPS Geofencing + Camera Verification, active break management with net productive hours calculation, visual work hours vs extra overtime charts, self-service dispute regularization, team shift rostering, and salary-ready muster roll payroll exports.

1. Feature-by-Feature Operational Specifications

1. GPS Geofencing & Photo Verification Clock-In

What It Does	Enforces real-time location & photo identity verification on check-in/out.
How It Works	• Haversine distance algorithm compares GPS coordinates against office location. • Strict AUTO Mode blocks clock-in if outside radius (e.g. 50m) unless remote note is attached. • Live camera snapshot captures photo via webcam/mobile canvas with fallback upload.
Key Benefits	Eliminates proxy attendance, buddy punching, and off-site spoofing.
Role Access	All Staff (Clock-In/Out) • Admin (Geofence Config)

2. Break Management & Net Productive Hours

What It Does	Logs break intervals and automatically calculates true productive working hours.
How It Works	• Break Types: Lunch, Tea/Coffee, Client Meeting, Personal, or Other Break. • Ticking live stopwatch tracks duration on widget; 'Resume Work' ends break. • Net Productive Hours = Total Clocked Hours - Total Break Duration. • Auto-Close on Check-Out ensures open breaks are concluded cleanly.
Key Benefits	Complete transparency on productive time vs break time for capacity planning.
Role Access	All Staff (Take Breaks) • Managers / HR (Audit)

3. Per-Employee Work Hours & Extra (Overtime) Charts

What It Does	Stacked visual charts separating regular shift hours from extra overtime hours.
How It Works	• Stacked Bars: Regular Hours (capped at 8h target) + Extra Overtime Hours (+OT). • Shift Target Benchmark: Dashed 8.0h reference line highlights under-time vs overtime. • Granular Presets: 7 Days, 14 Days, This Month, Last Month, Custom Date Range. • Staff Selector: Managers/HR can drill into any employee's hours & daily logs.
Key Benefits	Immediate visual clarity on overtime contributions and punctuality trends.
Role Access	Staff (Personal View) • Managers & HR (All Staff)

4. Attendance Regularization & Dispute Workflow	
What It Does	Self-service system for correcting missed punches, field visits, or system glitches.
How It Works	- Employee submits request with target date, corrected In/Out times, and justification. - Categories: Missed Clock-In/Out, Full-Day Absent Fix, Client Duty, Device Glitch, WFH. - Managers review with remarks and click Approve or Reject. - On approval, database updates Attendance record to APPROVED and recalculates hours.
Key Benefits	Eliminates manual dispute emails and maintains a clean digital audit trail.
Role Access	Staff (Apply) • Managers & HR (Approve)

5. Interactive 7-Day Monthly Muster Calendar Matrix	
What It Does	Visual 30-day calendar matrix color-coding daily attendance statuses.
How It Works	- Status Tiles: Present (Green), Late (Amber), Absent (Red), Leave (Blue), Holiday (Cyan). - Day Inspection Drawer: Click any day tile to view punch times, OT, and break counts. - Monthly KPIs: Working days, present days, late count, absent days, total OT hours.
Key Benefits	Instant 30-day birds-eye view of employee consistency and attendance health.
Role Access	Staff (Personal Calendar) • Managers & HR (Team View)

6. Shift Rostering & Peer Shift Swaps	
What It Does	Shift template manager, team roster schedule grid, and shift swap workflows.
How It Works	- Shift Master: General (09:30-18:30), Morning (06:00-14:30), Evening, Night shifts. - Team Roster Grid: Multi-day schedule matrix displaying assigned shifts per employee. - Bulk Assignment: Assign shift templates to multiple staff across date ranges. - Shift Swaps: Request peer-to-peer shift swaps or reassignments with manager approval.
Key Benefits	Ensures 24/7 coverage, operational flexibility, and zero coverage gaps.
Role Access	Staff (View Roster/Swap) • Managers/HR (Assign/Approve)

7. Master Analytics & Payroll-Ready Muster Roll Export	
What It Does	Executive analytics and salary-ready monthly attendance muster ledger.
How It Works	- Department Comparisons: Bar charts comparing attendance and overtime rates. - Overtime Leaderboard: Identifies top overtime earners for accurate payroll crediting. - Salary Muster Roll Table: Full ledger with Present, Absent, Leaves, OT, and Payable Days. - One-Click CSV Export: Downloads payroll-ready CSV format for accounting software.
Key Benefits	Saves HR hours of manual calculation and guarantees accurate monthly payroll.
Role Access	Managers, HR & Admin (Full Access)

8. Enterprise Geofencing & Office Settings	
What It Does	Admin controls for physical office coordinates, radius, and shift timing thresholds.
How It Works	- Browser GPS Auto-Detection: One-click capture of office coordinates with accuracy readings. - Geofence Radius Slider: Configurable perimeter distance in meters (e.g. 50m - 500m). - Shift Policy Timings: Set default start/end times and late grace minutes (e.g. 15m).
Key Benefits	Provides centralized administrative control over attendance security and policy rules.
Role Access	Admin Role Strictly Restricted

2. Quick Reference: Which Feature Does Which Thing?

Feature Module	Primary Functionality	Key Action / Output
Today Clock-In	GPS + Camera Verification	Clock in within office radius
Break Management	Pause tracking & timer	Logs lunch/tea; computes net hours
Hours & OT Chart	Stacked regular vs OT graph	Visualizes regular vs extra OT vs 8h target
Regularization	Dispute & missed punch fixes	Apply for missed clock; Manager approves
Muster Calendar	30-day visual status grid	Click tiles to view punches & leaves
Shift Rostering	Shift templates & schedules	Assign morning/night shifts; Peer swaps
Muster Roll Export	Salary-ready monthly sheet	Export CSV with payable days & OT
Enterprise Settings	Office GPS & geofence radius	Set office GPS, radius & grace threshold

3. Role-Based Access Control (RBAC) Permissions

Capability	Employee	Manager	HR	Admin
Clock In / Out (GPS & Photo)	■ Yes	■ Yes	■ Yes	■ Yes
Take Breaks & Resume Work	■ Yes	■ Yes	■ Yes	■ Yes
